## OBJECTIVE

Tech-driven Frontend Developer with expertise in JavaScript, React.js, Node.js, and MongoDB. Skilled in building scalable, user-friendly interfaces and solving complex problems through efficient code. Seeking opportunities to contribute innovative solutions while continuously learning and growing in the tech industry.

## EXPERIENCE

### Freelance Frontend Developer (2021 – 2024)

- Portfolio Website for a Client:
  - Built a fully responsive and intuitive portfolio using HTML, CSS, JavaScript, and Firebase.
  - Reduced update time by 50% and made it easily editable for the owner.
- File Management System for a Small Business:
  - Developed a secure, scalable file management system using Node.js, EJS, and MongoDB, designed for deployment on a local/private network, enhancing security and reducing external risks by 100%.
  - Improved load times by ~2× compared to traditional cloud-based file storage by reducing network latency and external API dependencies, ensuring faster file retrieval in a controlled environment.
- Frontend Website for Code Endeavor:
  - Implemented the front end for an educational web platform using HTML, CSS, and JavaScript.
  - Optimized SEO performance, achieving #1 ranking on Google search results.

## TECHNICAL SKILLS

- Frontend: HTML, CSS, Bootstrap, JavaScript, jQuery, React.js
- Backend: Node.js, Express.js, MongoDB, Firebase, MySQL
- Programming Languages: Java, C++, Python
- Cloud & Tools: AWS (Basics), Git, GitHub, Netlify

## SOFT SKILLS

- Analytical skill
- Creativity
- Quick Learning
- Active Listening
- Observant

## EDUCATION

Master of Computer Applications (MCA)

*Lovely Professional University (2022 – 2024) | CGPA: 7.85*

Bachelor of Computer Applications (BCA)

*DAV College, Jalandhar (2017 – 2020) | 64.74%*
